You did it!

You've successfully created a project with Vite + Vue 3.

📖 Documentation

Vue's official documentation provides you with all information you need to get started.

🗄 Tooling

This project is served and bundled with Vite. The recommended IDE setup is VSCode + Volar. If you need to test your components and web pages, check out Cypress and Cypress Component Testing.
More instructions are available in README.md.

🔅 Ecosystem

Get official tools and libraries for your project: Pinia, Vue Router, Vue Test Utils, and Vue Dev Tools. If you need more resources, we suggest paying Awesome Vue a visit.

💬 Community

Got stuck? Ask your question on Vue Land, our official Discord server, or StackOverflow. You should also subscribe to our mailing list and follow the official @vuejs twitter account for latest news in the Vue world.

♥ Support Vue

As an independent project, Vue relies on community backing for its sustainability. You can help us by becoming a sponsor.
